Gaudreaus Auction Company has been consigned to sell the partial contents of the **Diment-Sandberg estate** located in **Hampton, CT.** We have moved these items to our hall for the convenience of everyone involved.

We will be selling quality multi-generational, unusual, and rare international items from this wonderful country estate to the high bidders!!

NOTE: The following Saturday (May 20th), we will be selling the original modern artwork from the same estate, once again, at our gallery. That sale will include several rare and important pieces of original artwork done by world renowned modern and at times controversial artist, **Luis Jimenez**.

Mr. Jimenez was a close family friend for many years and used the Sandberg-Diment studio while visiting them in Connecticut on several occasions. The other artwork includes many, large, brightly painted, very attractive modern pieces of art that although a writer by trade,

Mr. Sandberg-Diment accomplished these pieces in his own studio in Hampton, CT.

We look forward to seeing you at both of these fine sales.

PARTIAL LISTING for the May 13th sale
